## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Superintending School Committee and citizens of the Town of Greenwood:

I herewith submit my seventh annual report of the schools and school property of this town.

The schools opened for the fall term with only one change in the teaching staff. Mr. R. L. Conant was elected to teach the intermediate grades as Mr. George Wakefield resigned to accept a position in the Junior High School at Dixfield. Mr. Conant comes to us very well recommended. Three of the teachers attend Summer School. With their experience and training, all of the teachers are well qualified to efficiently fill the positions which they now occupy. All teachers and pupils seem enthusiastic and are showing a fine spirit of co-operation, each doing his or her part to maintain a high standard of efficiency.

The registration in the Common Schools for the fall term was slightly below that of the previous year, while the High School registration has increased. The attendance for the fall term did not average as high as usual because of illness. The parents and pupils have co-operated with the teachers in every way to make the school attendance a success. The High School tuition will be at least \$600 more another year as a class of twenty is expected to be graduated from the Grammar Schools, while only three will be graduated from the High Schools this year.

The plan for carrying on Health work has not changed to any extent during the past two years as there has been no appropriation for a school nurse. It would seem advisable as the town has no school physician to appropriate \$25 toward the County Nurse's salary to assure the pupils of regular examinations and follow up work.

The schools are fairly well supplied with textbooks. New Arithmetics have been supplied for the sixth and eighth grades. Some supplementary reading material was purchased to take the place of worn-out copies in the various grades. Reading matter is needed in the lower grades. Books should be purchased for the school Library. If some of the interested citizens of the town would from time to time give books to the school they would be greatly appreciated.

The schoolhouses are in fairly good condition, especially on the inside. The shed at the Richardson Hollow School needs to be shingled. The Irish schoolhouse should be shingled and other minor repairs made on the building as it may be necessary to re-open that school after another year. Through the help of the State Educational Department the water system, with flush toilets, has been installed at the Lockes Mills schoolhouse. A gift of \$25 was received from the Lockes Mills schools toward making the above improvements.

On account of the addition of a room and other repairs on the Lockes Mills school the town and school officials decided to increase the insurance on the building. As there was no appropriation made at the last annual meeting, it will be necessary to appropriate a certain amount to reimburse the town for payment of the premium. There are no fire extinguishers in this building so at least three will have to be purchased in order to meet the requirements of the Insurance Company. It would seem advisable to meet the expense of insurance premium and fire extinguishers by taking \$200 from the annual appropriation for Common School and High School accounts so as not to increase the total appropriation for all school purposes over that of the past year.

The reports from the various High Schools indicate that all of our students, especially the Freshman class, have been doing exceptional work as the majority of them are on the honor rolls of the schools which they attend.

Following are statistics regarding the teachers:

School	Teacher	Experience	Salary
Lockes Mills Grammar.	Prin. Mrs. Louvie Coffin,	9 yrs.	\$16.00
Lockes Mills Intermediate,	R. L. Conant,	16 yrs.	17.00
